CAREER OBJECTIVE

First-year B.Tech Computer Science & Engineering student with strong hands-on experience in **Python, AI workflows, and practical system building**. Passionate about applying data science, machine learning, and automation to solve real-world problems. Seeking an internship where I can contribute technically while learning from industry exposure.

EDUCATION

B.Tech – Computer Science & Engineering

Vidya Prasarak Mandal's Polytechnic

2025 – 2029

TECHNICAL SKILLS

- **Programming:** Python, JavaScript, C
 - **AI / ML Tools:** Langflow, LM Studio, API-based AI workflows
 - **Backend & Web:** Node.js and Web Development Basics
 - **Version Control:** Git, GitHub
 - **Other Skills:** Data handling, Automation logic, Prompt engineering
 - **Creative Tools:** Graphic Design, Video Editing
-

ACADEMIC & PERSONAL PROJECTS

GitHub PR Review Bot with Telegram

Aug 2025

[Demo](#)

- Built a system that allows developers to request **GitHub Pull Request reviews directly via Telegram**.
- Integrated GitHub APIs with Telegram bots using **Langflow** for real-time responses.
- Demonstrates **component-based architecture, API integration, and automation workflows**.

ClauseBot – Offline AI Contract Auditor

Jul 2025

[Demo](#)

- Developed an **offline AI-powered contract auditing tool** using Langflow and LM Studio.
- Analyzes contracts against internal policy rules and flags **risky or non-compliant clauses**.
- Designed to function **without internet access**, focusing on privacy and enterprise use-cases.

EXTRA-CURRICULAR & TECH ACTIVITIES

- **Smart India Hackathon 2025 (Internal Round):**
Participated in ideation, system design, and prototype development; team selected to advance from the internal round (First-year team).
- **Content Creation & Design:**
Created technical videos and graphics for YouTube explaining projects, workflows, and Langflow challenges.

ACHIEVEMENTS & ADDITIONAL DETAILS

- **Langflow Challenges Winner:**

- 1st place – July (\$500 prize)
- 6th place – August (\$50 prize)

Recognized for practical AI workflow development and innovation.

- **Technical Writer (Medium):**

Published AI & tech articles in top publications including *JavaScript in Plain English*, *Python in Plain English*, *Stackademic*, *AWS in Plain English*, and others.

- Articles achieved **11K+ peak views** and **500+ average organic views**.
